Star Observer Magazine June 2015-Elias Jahshan 2015-05-19

Death of a Coupon Clipper-Lee Hollis 2013-07-01 Hayley Powell, food and cocktails columnist for Bar Harbor's Island Times, is. . . well, kind of broke. So when she's selected for that extreme coupon-clipping reality game show coming to town. . . . she's thrilled, especially when her competition is nasty nurse Candace Culpepper. But when Haley stumbles across a face-down-in-the-snow Candace--scissors gleaming between her shoulders--she knows the next thing she'll be selected for will probably be a police line-up. Meanwhile, though Hayley's BFF Mona was only joking about "taking Candace out," Bruce Linney, the Island Times crime reporter, definitely isn't laughing. And what about the smarmy, cold-hearted host of the show, Drew Nickerson, who may have been having a steamy affair with the intentionally-iced nurse? Hayley needs to cut to the chase and find the killer. Everything may hinge on a stray coupon, but Hayley better keep her eyes on the real grand prize: staying out of permanent cold storage! Includes seven delectable recipes from Hayley's kitchen! Praise for Death of a Kitchen Diva "Delicious and satisfying. Another course, please." --Carolyn Hart "Readers will be calling for a second round from author Lee Hollis." --Leslie Meier, author of Chocolate Covered Murder

Hot Stamping of Ultra High-Strength Steels-Eren Billur 2018-10-05 Providing a comprehensive overview of hot stamping (also known as ‘press hardening’), this book examines all essential aspects of this innovative metal forming method, and explores its various uses. It investigates hot stamping from both technological and business perspectives, and outlines potential future developments. Individual chapters explore topics such as the history of hot stamping, the state of the art, materials and processes employed, and how hot stamping is currently being used in the automotive industry to create ultra-high-strength steel components. Drawing on experience and expertise gathered from academia and industry worldwide, the book offers an accessible resource for a broad readership including students, researchers, vehicle manufacturers and metal forming companies.

Strategic Public Relations Management-Erica Weintraub Austin 2015-02-20 Strategic Public Relations Management features an applied approach to evidence-based, strategic public relations management. It emphasizes understanding audiences through research and demonstrates success through quantitative evaluation methods. The volume presents a scientific approach that helps future and current practitioners understand and communicate the value of public relations to others, using performance metrics to demonstrate return on investment. New to the third edition: New examples on the effective use of digital communication and online research tools; Updated guidance on researching using digital tools and social media; New examples that provide a more accessible pathway to real-world application. In addition to these new features, the book covers: Creating a framework for planning; Up-to-date research tools and how to develop a research plan; Gathering useful data for strategic guidance; Real-world examples that provide readers with realistic cases and situations; Applying theory to professional practice. The book's accessibility will be welcomed by instructors and students with definitions of terms, a how-to approach, and an accessible style of writing throughout.

Asian Competitors: Marketing For Competitiveness In The Age Of Digital Consumers-Kotler Philip 2019-03-15 Today's dynamic and uncertain environment has contributed to the changing nature of markets. In order for companies to keep up, they will need to embark on new wave marketing to ride the wave of opportunities provided by the changes in the environment, such as the digital revolution.This is critical all over the world, but none more so than in Asia. Asia is not only the world's biggest market, but also the fastest growing. It is therefore essential for marketers to understand the dynamics of Asian companies and what they have to offer to the wider world. This book analyzes competitive companies from 18 Asian countries that have successfully practiced new wave marketing and in so doing, provide invaluable lessons that others may find useful. Comprehensive case studies are used not only to describe how some of Asia's best companies compete, but also to analyze the concepts of new wave marketing their actions are based on. This book is unique in its depth and breadth of cases, from companies in the ASEAN region to North-east Asia, including Mongolia and SAARC.The authors of this book, Professor Philip Kotler, arguably the Father of Modern Marketing, Hermawan Kartajaya from Indonesia, and Hooi Den Huan from Singapore, are all experts in their field and have previously produced other bestsellers. This book, with its focus on real life examples of competitive Asian companies in the age of digitalization, complements the principles and theoretical frameworks of new wave marketing that are detailed in its sister book, Marketing for Competitiveness. Together, these books provide a comprehensive picture of the changing Asian marketing landscape.

Handbook of Trace Evidence Analysis-Vincent J. Desiderio 2020-08-18 Covers new trace evidence techniques and expanding areas of analysis, along with key theory and applications Developed around the need for updated information in the disciplines of trace evidence the Handbook of Trace Evidence Analysis focuses on the increasing awareness and need for validation, modern methods for addressing and controlling contamination, the shift towards incorporating statistical analyses into the interpretation phase and cutting edge research into new forensic science methods and their application. Beginning with an overview of the topic and discussing the important role that information derived from trace materials can provide during investigations, the book then presents chapters on key techniques. The first being the critical nature of microscopy, and the methods employed for the recognition, collection, and preservation of trace evidence. Subsequent chapters review the core disciplines of trace evidence examination: paints and polymers, hairs, fibers and textiles and glass. Each chapter contains in-depth discussions on the origin of the materials involved, including any natural or synthetic processes involved in their production, the nuances involved in their detection, and the methods of analysis that are used to extract valuable information from samples. In addition, suggested workflows in method and testing selections, as well as addressing specific scientific challenges as well as the limitations of knowledge on the transfer, persistence and background abundance of trace materials are discussed. The book ends by examining the interpretation of trace evidence findings from a historical perspective and examining the methods that are currently being developed. Provides an in-depth introduction to the general area of trace evidence and discusses current and new techniques Consolidates trace evidence and materials categories of testing into one reference series Offers a detailed focus on technical approaches and guidelines to trace evidence Includes analytical schemes/workflows and valuable guides for the interpretation of data and results The Handbook of Trace Evidence will appeal to forensic science academics, students, and practitioners in the trace evidence and materials science disciplines, as well as DNA analysts, toxicologists, forensic anthropologists, crime laboratory managers, criminal justice students and practitioners, and legal professionals. It would also be a valuable resource for every crime laboratory reference library.

Auto Repair For Dummies-Deanna Sclar 2019-01-07 Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide—400,000 copies sold—now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

The World of Words-Margaret Ann Richek 2013-02-14 The World of Words not only teaches students the vocabulary they need for academic success, but also arms them with the skills they need to acquire new words independently for years to come. Through repetition and a focus on integrating three critical skills - dictionary use, context clues, and word elements - this best-selling text inspires students to take the first steps towards a lifetime of learning about language. Online audio clips help students hone pronunciation, and in-text practice exercises and sample sentences feature engaging topics such as college sports, current news topics, and pop culture. In addition, there is a wealth of instructor support materials, including pre-written tests for every chapter. Available with InfoTrac Student Collections http://goengage.com/infotrac. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Our Livable World-Marc Schaus 2020-10-13 A vital guide to the frontlines of our fight against climate change and the scientific and technological innovations that will revolutionize the world. The United States’ accelerated plans to combat the existential threat of climate change finally give reason to hope. In Our Livable World, research specialist and author Marc Schaus explores the incredible new green innovations in science and engineering that can allow us to avoid the worst repercussions of global warming as we work to usher in a sustainable, livable world. To beat a challenge the size of climate change, our solutions will have to be ambitious: solar thermal cells capable of storing energy long after the sun goes down, “smart highways” designed to charge your vehicle as you drive, indoor vertical farms automated to maximize crop growth with no pesticides, bioluminescent vines ready to one day replace our streetlights, jet fuel created from landfill trash—and next-generation carbon capture techniques to remove the emissions we have already released over the past several decades. Far from the geoengineering schemes of cli-fi action thrillers, real solutions are being developed, right this moment. Our Livable World features interviews with the innovators, real talk on the revolutionary technology, and a clear picture of a cleaner planet in the future. “An important book that shows the dawn of a new kind of environmental movement—an age where we invest in deeply creative and fascinating technical solutions that work in harmony with the Earth. Marc Schaus lays out the exciting future of environmental innovation before us.” —Katie Patrick, author of How to Save the World

La contabilità dei costi del personale-Andrea Sergiacomo 2013

Fahrwerkhandbuch-Bernd Heiſing 2013-09-25 Fahrwerke moderner Pkw stellen je nach Konfiguration eine Kombination mechanischer, hydraulischer, pneumatischer, elektrischer und elektronischer Komponenten dar, wobei sich mit jeder Neuentwicklung der Anteil elektronischer Steuerungs- sowie Regelsysteme erweitert und der Funktionsumfang der fahrdynamischen Eigenschaften zunimmt. Mit Blick auf die Fahrdynamik werden in diesem Band die konventionellen Elemente und deren Zusammenwirken mit mechatronischen Systemen dargestellt. Dabei werden zunächst Grundlagen und Auslegung, danach in besonders praxisnaher Darstellung die Fahrdynamik dargelegt. Es folgen ausführliche Beschreibungen und Erläuterungen der modernen Fahrwerk-Komponenten. Ein eigener Abschnitt widmet sich den Achsen und Prozessen für die Achsenentwicklung. Die Überarbeitung enthält u.a. Aktualisierungen zum autonomen Fahren, zu Elektrofahrwerken und neuesten Fahrerassistenzsystemen.

City of Seditiоn-John Strausbaugh 2016-08-02 WINNER OF THE FLETCHER PRATT AWARD FOR BEST NON-FICTION BOOK OF 2016 In a single definitive narrative, CITY OF SEDITION tells the spellbinding story of the huge-and hugely conflicted-role New York City played in the Civil War. No city was more of a help to Abraham Lincoln and the Union war effort, or more of a hindrance. No city raised more men, money, and materiel for the war, and no city raised more hell against it. It was a city of patriots, war heroes, and abolitionists, but simultaneously a city of antiwar protest, draft resistance, and sedition. Without his New York supporters, it's highly unlikely Lincoln would have made it to the White House. Yet, because of the city's vital and intimate business ties to the Cotton South, the majority of New Yorkers never voted for him and were openly hostile to him and his politics. Throughout the war New York City was a nest of antiwar "Copperheads" and a haven for deserters and draft dodgers. New Yorkers would react to Lincoln's wartime policies with the deadliest rioting in American history. The city's political leaders would create a bureaucracy solely devoted to helping New Yorkers evade service in Lincoln's army. Rampant war profiteering would create an entirely new class of New York millionaires, the "shoddy aristocracy." New York newspapers would be among the most vilely racist and vehemently antiwar in the country. Some editors would call on their readers to revolt and commit treason; a few New Yorkers would answer that call. They would assist Confederate terrorists in an attempt to burn their own city down, and collude with Lincoln's assassin. Here in CITY OF SEDITION, a gallery of fascinating New Yorkers comes to life, the likes of Horace Greeley, Walt Whitman, Julia Ward Howe, Boss Tweed, Thomas Nast, Matthew Brady, and Herman Melville. This book follows the fortunes of these figures and chronicles how many New Yorkers seized the opportunities the conflict presented to amass capital, create new industries, and expand their markets, laying the foundation for the city's-and the nation's-growth.

Etnografias possíveis-Maria Elisabeth Goidanich 2016-04-20 "Que longo trajeto o da etnografia! De um conceito usado pelos antropólogos para se referir ao seu fazer, o que incluía o estranhamento, o trabalho de campo, mas também um diálogo teórico com autores da disciplina, até sua banalização atual, sendo sinônimo para todo o procedimento de pesquisa não quantitativa que envolva contato direto com pessoas - ou, até, como no caso, contato mediado por uma câmara de filmar". CARMEN RIAL (presidente da Associação Brasileira de Antropologia) Carmen Rial acerta em cheio ao dizer, no prefácio do livro, o quanto a etnografia, ao mesmo tempo em que ganhou novos campos, perdeu elementos que a caracterizavam em seu escopo inicial. A etnografia vem sendo cada vez mais empregada como recurso de pesquisa nas grandes empresas. O que poucos pesquisadores de mercado sabem, no entanto, é que a etnografia é um modo de pesquisar que tem origem na antropologia. O objetivo do livro não é, de modo algum, disputar o conceito, mas antes, dar a conhecer modos de se fazer uma pesquisa etnográfica considerando os elementos do seu escopo inicial e adaptando-a aos estudos de consumo no ambiente urbano. Nesta obra, as organizadoras convidaram autoras que optaram pela etnografia em seus trabalhos acadêmicos, a dividirem com o leitor as suas experiências de campo. Algumas dessas autoras, que também possuem vínculos com o trabalho de pesquisa de mercado, proporcionam ao leitor o conhecimento de algumas possibilidades de pesquisa etnográfica, abordando, não só a riqueza de dados que ela proporciona, mas seus percalços, dilemas e dificuldades. Etnografias possíveis é um livro indicado para pesquisadores da academia e do mercado que desejam mergulhar no fascinante mundo do consumidor usando os recursos etnográficos como um meio seguro para ganhar mais profundidade neste mergulho.

Maximum Boost-Corky Bell 1997-08-10 Whether youre interested in better performance on the road or extra horsepower to be a winner on the track, this book gives you the knowledge you need to get the most out of your engine and its turbocharger system. Find out what works and what doesnt, which turbo is right for your needs, and what type of set-up will give you that extra boost. Bell shows you how to select and install the right turbo, how to prep your engine, test the systems, and integrate a turbo with EFI or carbureted engine.
