Twelve Years a Slave-Solomon Northup 101-01-01 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

The Ethanol Papers-Marc J. Rauch 2020-01-10 In this brash and audacious debunking of the myths and manipulation that brought the world to oil addiction, alt fuel expert Marc J. Rauch brilliantly lays out how ethanol can change the planet for the better--and along the way helps us navigate the noise of petroleum advocates.The Ethanol Papers is a rough-and-tumble, no holds-barred crystallization of the ethanol vs. gasoline conflict. Written in plain jargon, non-scientists, non-academics, and politicians alike will find it compelling. Yet this is no "Idiots Guide to Biofuels" or "Alt Fuels for Dummies." Rather, The Ethanol Papers is the most in-depth and complete explanation of the ethanol-oil problem now available, targeted for smart people who demand facts.

Julio's Day-Gilbert Hernandez 2013-04-20 It begins in the year 1900, with the scream of a newborn. It ends, 100 pages later, in the year 2000, with the death-rattle of a 100-year-old man. The infant and the old man are both Julio, and Gilbert Hernandez's Julio's Day (originally serialized in Love and Rockets Vol. II but never completed until now) is his latest graphic novel, a masterpiece of elliptical, emotional storytelling that traces one life -- indeed, one century in a human life -- through a series of carefully crafted, consistently

surprising and enthralling vignettes. There is hope and joy, there is bullying and grief, there is war (so much war -- this is after all the 20th century), there is love, there is heartbreak. This is very much a singular, standalone story that will help cement Hernandez's position as one of the strongest and most original cartoonists of this, or any other, century.

Is Nature Enough?-John F. Haught 2006-05-04 Is nature all there is? John Haught examines this question and in doing so addresses a fundamental issue in the dialogue of science with religion. The belief that nature is all there is and that no overall purpose exists in the universe is known broadly as 'naturalism'. Naturalism, in this context, denies the existence of any realities distinct from the natural world and human culture. Since the rise of science in the modern world has had so much influence on naturalism's intellectual acceptance, the author focuses on 'scientific' naturalism and the way in which its defenders are now attempting to put a distance between contemporary thought and humanity's religious traditions. Haught seeks to provide a reasonable, scientifically informed alternative to naturalism. His approach will provide the basis for lively discussion among students, scholars, scientists, theologians and intellectually curious people in general.

Juz Amma from the Noble Quran Bilingual Edition English & Arabic-Muhammad Vandestra 2018-04-24 Juz Amma from The Noble Quran bilingual edition with english and arabic language edition. The Noble Quran literally meaning "the recitation"; also romanized Qur'an or Koran is the central religious text of Islam, which Muslims believe to be a revelation from Allah SWT (God). It is widely regarded as the finest work in classical Arabic literature. The Quran is divided into chapters (surah in Arabic), which are then divided into verses (ayah). Muslims believe that the Quran was verbally revealed by God to Prophet Muhammad SAW through the angel Gabriel (Jibril), gradually over a period of approximately 23 years, beginning on 22 December 609 CE, when Prophet Muhammad SAW was 40, and concluding in 632, the year of his death. Muslims regard the Quran as the most important miracle of Prophet Muhammad SAW, a proof of his prophethood, and the culmination of a series of divine messages that started with the messages revealed to Prophet Adam (Pbuh) and ended with Prophet Muhammad SAW. The word "Quran" occurs some 70 times in the text of the Quran, although different names and words are also said to be references to the Quran. According to the traditional narrative, several companions of Prophet Muhammad SAW served as scribes and were responsible for writing down the revelations. Shortly after Prophet Muhammad SAW passed away, the Quran was compiled by his companions who wrote down and memorized parts of it. These codices had differences that motivated the Caliph Uthman to establish a standard version now known as Uthman's codex, which is generally considered the archetype of the Quran known today. There are, however, variant readings, with mostly minor differences in meaning. The Noble Quran assumes familiarity with major narratives recounted in the Biblical scriptures. It summarizes some, dwells at length on others and, in some cases, presents alternative accounts and interpretations of events. The Noble Quran describes itself as a book of guidance for mankind.
